

## **Disabling Remote ACEmanager Access**

Remote ACEmanager access is disabled by default on Sierra Wireless gateways. Sierra Wireless strongly recommends leaving remote access disabled and using AirLink Management Service (ALMS) to monitor and configure your gateways remotely. This application note describes how to disable remote ACEmanager access from ALMS, if it has been enabled on your devices.

**Important:** Sierra Wireless strongly advises performing this operation from ALMS to ensure that you have a means of administering the gateway after remote access to ACEmanager is disabled.

For more information about getting started with ALMS, see source.sierrawireless.com/airvantage/alms/

For general information about configuring your system using ALMS, see doc.airvantage.net/av/reference/monitor/howtos/changeASystemConfiguration/

The most efficient way to disable remote ACEmanager access is to create a template and then apply the template to several devices at once.

To create and save a template:

1. On the AirVantage menu, click Configure and select Templates.

🚸 AirVantage	🍽 Register	🖽 Monitor	🛱 Configure	🔀 Develop
Walcomo			Templates	
welcome	•		Datasets	
			Alert Rules	
Focus on Eve	rything <del>-</del>		Labels	_

2. Click the Create button, and select Brand-new.

Air\	<b>/antage 📄</b> Register	🖽 Monitor 🛛 🎝 Configure	🔀 Develop	Q 🖾 📢	₽ 🔘 =
			Templates Datasets Alert Rules	Labels	
× Filters	Name	Name	+	Brand-new	C x \ H
	Name	Description	Application	From System Revision	wing 1 to 50 of 244 entries
	TTHROOP-MP70WiFi		ALEOS MP70	4.6.1.017	
	GM-AVTA-101		AVTA	1.0.1	

The Create template window appears.

3. Select the application and firmware to which you want to apply the template.

Create template		
Create template based on a	n application data	
Application / Firmware	Select an Application	<b>Q</b>
	ALEOS MP70 F (4.9.2.001)	Cancel
From MP70	ALEOS MP70 F (4.9.1.002)	4.8.0.021
	ALEOS MP70 F (4.9.0.040)	1.0.0
	ALEOS MP70 <b>F</b> (4.8.1.006)	3.0
	ALCOC MD70	•

4. Click Continue.

A page of ALEOS setting appears.

- 5. Click Services > ACEmanager > General.
- 6. For Remote Access, select Disable, and then click Save at the bottom of the page.

🏀 · AirVantage 🛤 Register 🖽 Monitor ⊀	🛱 Configure	🗶 Develop	् 🔤 📢	
ALEOS MP70 (4.9.2.001) > New Temp	plate			Load Template Cancel
Quie	ickly find any dat	a	T	
ALEOS MP70 (4.9.2.001) / Services / AC	CEmanager	✓ / General ✓ Select All DATA		
				C Only settings
Remot	te Access	Select an option		1
locs		Disable HTTPS Only		
Luce		Both HTTP and HTTPS		
Wi-Fi Al	P Access	Select an option 👻		(i)

7. In the Save Template window, enter a name and description for your template.

Save Template		
Provide a name and a descri	ption	
Name	Create or select a Template	-
Description	MP70 Disable Remote ACEmanager	٩
	MP70 Disable Remote ACEmanager (New)	
		Save Cancel

8. Click Save.

To apply the template to your devices:

1. Click Monitor and select Systems.

> AirVantage	🖛 Register	III Monitor	🌣 Configure	⊁ Develop
Welcome		Systems		
weicome		Alerts		

The list of systems appears.

- 2. Using the checkboxes along the left side, select the systems you want to configure.
- **3.** Click the Apply template button.

4. In the Apply template window, select your template.

i
Cancel

5. Click Apply template.
