

## USAT Antenna Brackets and Ground Planes

### GB AND GP SERIES EQUIPMENT

#### USAT GB06 Antenna L-Bracket | SUPPORTS ANTENNAS UP TO 6" DIAMETER

Specialty outdoor rated metal L-Bracket for mounting of antennas up to 6" in diameter. Design provides integrated ground plane for maximum antenna signal strength. Mounts to the sides of buildings, vehicles, boxes, and masts.

#### USAT GB09 Antenna L-Bracket | SUPPORTS ANTENNAS UP TO 8.5" DIAMETER

Specialty outdoor rated aluminum Antenna Bracket for mounting of antennas up to 8.5" in diameter including ground plane. Design provides space for 4G-LTE optimized ground plane NOT INCLUDED. The GP09 Ground Plane used in conjunction with the GB09 Antenna Bracket delivers maximum antenna signal strength. The mount was designed for easy installation within a variety of settings including the side of buildings, boxes, masts, and poles. Includes keyhole mounting slots, leveling holes, and strap slots.

#### USAT GP09 Antenna Ground Plane | 8.5077" DIAMETER

Conductive ground plane designed for optimal antenna performance on 4G LTE (640 - 700 MHz), 3G CDMA and 3G GSM based cellular networks. Corrosion resistant 8.5077" diameter circular aluminum ground plane optimized for 694-960 MHz CELL/LTE, as well as 3G 800-2100 MHz cellular applications.

Wall Mounted LTM Antenna with GB09 with GP09

Pole Mounted Mast Antenna with GB06

Wall Mounted RM-WLF Antenna with GB06

Telephone Pole Mounted Mast Antenna with GB06
