

# Get fast, flexible internet connectivity.

Verizon LTE Business Internet delivers reliable connectivity almost anywhere you do business in the U.S.

**Fast, reliable internet service fuels today's businesses. Whether you're connecting remote employees to the office, customers to your business or your business to the cloud, connectivity matters.**

Are you maxing out your bandwidth or want to quickly stand up a temporary space? Perhaps you'd like better network options, or you need backup connectivity to protect against outages. LTE Business Internet from Verizon is a robust fixed wireless access solution available virtually anywhere in the U.S., and built with the flexibility, reliability and control you need to keep your business thriving.

Whatever the case, you have a great choice in fixed wireless access. LTE Business Internet is built to meet even the most demanding corporate needs while remaining simple to use and flexible enough for businesses of all sizes and types.

## Flexible

Tailor your connectivity to suit your business needs with a choice of three speed tiers and unlimited data. Connect your router virtually anywhere you go in the U.S.<sup>2</sup>

## Fast

Routers can be shipped in as little as three days. Self-installation is simple with step-by-step instructions.

## Reliable

Verizon offers America's most reliable 4G LTE network, connecting you nearly everywhere you do business.<sup>1</sup>

## A simple solution for small business

We keep connectivity simple and affordable with a small business solution that gets you up and running fast. Select one of the plans on the next page with an ARRIS wireless router that you can buy upfront or with a device payment plan. The router is ready right out of the box, and setup is easy—a few simple steps and your business is in business.

## See the features of the ARRIS NVG558.

- Supports the latest Wi-Fi 6 standard for enhanced Wi-Fi connectivity and performance
- Gigabit-capable Ethernet for wired connectivity to end-user devices
- Self-installable, simple configuration
- LED indicators assist in placement for optimal LTE connectivity
- Configuration and management capabilities for your gateway settings and connected devices in single web portal

- 1 America's best network based on rankings from the RootMetrics® U.S National RootScore® Report: 2H 2020. Tested with best commercially available smartphones on three national mobile networks across all available network types. Your experiences may vary. The RootMetrics award is not an endorsement of Verizon.
- 2 Available to U.S. business customers with 999 lines or less, subject to credit review. No domestic or international roaming. After 22 GB/mo/line, your data may be temporarily slower than other traffic during times of congestion. All data speeds will be limited (and reduced to speeds up to 600 Kbps) after a specific monthly per-line data threshold (speed and threshold vary by plan). Cannot be used for certain applications, including audio/video streaming, web hosting, public/guest Wi-Fi, voice and text. Terms apply.
- Price disclosure: Depending on speed tier purchased, 4G LTE pricing guaranteed for 12 consecutive months (price increase starting month 13), or 24 consecutive months (price increase starting month 25), or 36 consecutive months (price increase starting month 37), subject to continuation of all qualifying services and products; prices subject to increase thereafter; price guarantee applies to base monthly rate only; excludes optional services and equipment charges; prices subject to increase thereafter. Activation fee may apply depending on speed tier purchased.
